A

ABO genotypes 54
ACD 180
  and CPD, comparative viability of blood stored in 62
  clotting factor activity in cryoprecipitates and supernatant plasma prepared from blood collected into 135
  platelet increments and relationship to acidification with 156
  with adenine, clinical evaluation of transfused blood after long-term storage in 246
Adenine 1, 115, 191, 246
  and platelet Ca^{++} and Mg^{++} 212
  clinical evaluation of transfused blood after long-term storage in ACD with 246
  clotting factor activity in cryoprecipitates and supernatant plasma prepared from blood collected into, with ACD and CPD 135
  on clotting factors in fresh blood, stored blood, and stored fresh frozen plasma, effects of 191
  on stored erythrocytes evaluated by autologous and homologous transfusions, effect of 115
  with packed red blood cells 1
Adenosine 238
  triphosphate 229
Agglomeration on human red blood cells, effects of 120
Agglutinins for "null" red blood cells 40
American Association of Blood Banks, reference laboratories program of 336
Anaphylaxis 23
Anemia, hemolytic 40
Angiotensin in nonrefrigerated plasma, generation and survival of 205
Anti-A_1 lectins from Crotalaria 355
Antibodies (HAPA), hemagglutinating anti-penicillin 35
Antibody and persistent intravascular hemolysis after surgery under hypothermia, cold 70
  detection, comparison of effectiveness of various proteolytic enzymes in blood-group . 93
Anticoagulants, effect of, on calcium and magnesium content of human platelets 212
Antigen, acquired group B 160
Antiglobulin tests in cardiac surgery patients, positive 43
Anti-Gn^a, antibody reacting with high-incidence erythrocytic antigen 265
Anti-HI 70
Anti-Js^b, hemolytic disease of newborn due to . 217
Anti-M 203
Antipenicillin antibodies (HAPA), hemagglutinating 35
Anti-precursor antibodies 40
ATP 180, 238
Autoradiography
  of soluble metabolites in red blood cells .. 314
  of tagged donor platelets 324

B

Baboons, clinical and hematologic effects of cross circulation in 23
B antigen, acquired group 160
Blood bank
  computer program for hospital 78
  inventory control, computer approach to hospital 143
  inventory control, information needs for hospital 214
Blood
  components, transmission of syphilis by .. 32
  donors and hepatitis transmission 55
  stored blood, and stored fresh frozen plasma, effects of adenine on clotting factors in fresh 191
  studies on stored whole; use of packed red blood cells 1
  substitutes
    early history of; transfusion of milk ... 74
    in Soviet Union 167, 169
Blood-grouping apparatus, automated multichannel 348

C

Calcium 229
  content of human platelets, effect of anticoagulants on 212
Carcinoma and acquired B 160
Cardiovascular surgery, antiglobulin tests after 43
Centrifuge, pooled platelet concentrates prepared in new blood bank 251
^{51}Cr-release cytotoxicity test 151
^{51}Chromium survival of glycerolized cells frozen for up to six years 5
CPD 189, 191
  clotting factor activity in cryoprecipitates and supernatant plasma prepared from blood collected into 135
  comparative viability of blood stored in ACD and 62
Clotting factors in fresh blood, stored blood, and stored fresh frozen plasma, effects of adenine on 191

Abstracts

Antiglobulin Test

Anemia, positive lupus and rheumatoid factors with Methyldopa: A report of three cases, by J. D. Sherman *et al.* 164
Autoantibody formation associated with methyldopa (Aldomet) therapy, by S. M. Worlledge 358
Coombs' positive reactions associated with sodium cephalothin therapy, by H. R. Gralnick *et al.* 164
Coombs'-test positively induced by drugs: Mechanisms of immunological reactions and red cell destruction, by J. D. Croft, Jr., *et al.* 273
Direct Coombs' test reactivity after Cephalothin or Cephaloridine in man and monkey, by R. L. Perkins *et al.* 273
Immunohaematological cross-allergenicity between penicillin and cephalothin, by G. N. Abraham *et al.* 164
Positive direct Coombs test and antinuclear factor in patients treated with methyldopa, by A. Breckenridge *et al.* 164
Production of anti-human globulin in goats, by P. N. J. Ironside 163
The quantitative Coombs test employing fluorescein-labeled antisera, by B. A. Myhre ... 273

Blood Groups and Antibodies

ABO blood groups and polyps of the colon, by T. C. Fleming *et al.* 106
A "new" antibody associated with the Kell blood group system, by M. van der Hart *et al.* 359
An infrequent blood antigen "Tsunoi (Ts)" defined by the serum from a patient with acquired haemolytic anaemia, by H. Nakajima *et al.* 48
An investigation of a proposed mechanism for infertility based on ABO blood group incompatibility, by B. Boettcher and J. Hay 106
Antigen-antibody studies in the ABO blood group system with particular reference to cross-reacting antibodies in group O sera, by P. J. Lincoln and B. E. Dodd 358
Anti-IP_1: Antibodies that show an association between the I and P blood group systems, by P. D. Issitt *et al.* 49
Anti-Sp_1: The recognition of new cold autoantibody, by W. L. Marsh and W. J. Jenkins 272
Anti-Vel 2, a new antibody showing heterogeneity of Vel system antibodies, by P. D. Issitt *et al.* 272
A study of the antibodies of the H'O'I-B complex with special reference to their occurrence and notation, by D. Voak *et al.* 359
Atypical reacting blood group antigens in unrelated blood group systems observed in three male members of a family, by R. T. Simmons *et al.* 271
Complexities of the MN locus, by M. N. Metaxas *et al.* 272
Disaggregated human erythrocyte membranes and blood group activity, by F. A. Green ... 165
Further evidence for the serologic association of the O(H) and I blood groups, by L. N. Chessin and M. H. McGinniss 48
Inhibition of human erythrocyte membrane mediated ATP synthesis by anti-D antibody, by S. Schrier *et al.* 220
Isolation and characterization on anti-Lu^b antibody: Report of a case, by A. Chattoraj *et al.* 49
On the antigen Go^a and the Rh system, by B. Chown *et al.* 359
Phospholipid requirement for Rh antigenic activity, by F. A. Green 271
Probable assignment of the Duffy blood group locus to chromosome 1 in man, by R. P. Donahue *et al.* 221
Problems and pitfalls in blood grouping tests for non-parentage. II. The Rh-Hr blood group system, by A. S. Wiener 272
Problems and pitfalls on blood grouping tests for nonparentage. I. Distribution of blood groups, by A. S. Wiener 221
Production of seeds of *Vicia graminea* Sm as a source of anti-N lectin, by L. G. Labouriau . 358
Quantitative hemagglutination in the ABO system, by H. W. Hunt and N. E. Morton .. 359
Search for I antigen in human tissues, by T. Feizi and E. Monger 49
Siedler: An antibody which reacts with A_1 Le(a—b+) red cells, by N. J. Seaman 271
Sj, a new antigen in the MN system, and further studies on Tm, by P. D. Issitt *et al.* .. 271
Some observations on the ABO antigen sites of the erythrocyte membranes of adults and newborn infants, by S. Haberman *et al.* 165
The blood group antigen Ul^a (Karhula), by U. Furuhjelm *et al.* 220
The Diego blood group: Anti-Di^a and the Di(a+) blood group antigen found in Caucasians, by R. T. Simmons *et al.* 271
The distribution of the ABO blood groups in persons with Lewis antibodies, by R. H. Walker *et al.* 221
The effect of anti-A antibody on red cell organic phosphates and adenosine triphosphatase activity *in vitro*, by J. Palek *et al.* 106
The incidence of anti-A and anti-B isoagglutinins in cord blood and maternal saliva, by M. A. Denborough and H. H. Downing 359
The rare Kell blood group K-k-Kp(a—b—) or Ko with anti-Ku antibody found in an Australian woman, by R. T. Simmons and N. A. F. Young 271
The role of H in the development of A, by D. Voak *et al.* 359
Turnover of monoclonal γM-globulins (cold agglutinins) and their subunits, by H. Olesen and E. Hippe 220
Use of a tannic acid-caffeine concentration procedure for detecting urinary proteins and hemagglutinins, by T. J. Greenwalt *et al.* .. 48
Value of gel filtration on Sephadex G-200 in the analysis of blood group antibodies, by F. Stratton *et al.* 272

Blood Groups and Disease

Blood groups in ankylosing spondylitis, by A. M. Gronvik Kornstad *et al.* 221
Salivary secretion of blood-group factors in cancer, by M. J. Krant *et al.* 221

Coagulation

Administration of single doses of AHF (Factor VIII) concentrates in the treatment of hemophilic hemarthroses, by G. R. Honig *et al.* .. 359
Changes in surgical management of hemophiliacs. Pseudotumor of the ilium, by S. Wessler and L. Avioli 222
Concentrated preparations of Factor VIII (antihaemophilic globulin) in the management of haemophilia A and von Willebrand's disease, by P. A. Castaldi *et al.* 104
Evaluation of a new concentrate for the treatment of Factor IX deficiency, by G. S. Gilchrist *et al.* 273
Hemophilia: Role of organ homographs, by T. L. Marchioro *et al.* 222
Synthesis of antihemophilic factor (Factor VIII) by leukocytes: Preliminary report, by L. R. Zacharski *et al.* 222
Utilization of the residual plasma following preparation of Factor VIII cryoprecipitate, by H. A. Oberman and J. A. Penner 222

Extracorporeal Circulation

Blood trauma produced by pump oxygenators, by M. N. Anderson and K. Kuchiba 360
Isolation of cytomegalovirus from the blood leukocytes of a patient with post-transfusion mononucleosis, by K. M. Foster and I. Jack . 165
"Post pump syndrome": A variant of post-transfusion hepatitis, by R. Rosenblum and W. J. Heidenberg 165

Hemolytic Anemia

Antinuclear antibodies on Coombs-positive acquired hemolytic anemia, by E. M. Tan and H. Chaplin, Jr. 274
Autoimmune hemolytic anemia and neoplasia of the reticuloendothelium: With a hypothesis concerning etiologic relationships, by B. Pirofsky 53
Direct antiglobulin (Coombs) reactions in patients with connective tissue disease, by E. S. Mongan *et al.* 53
Enhanced Fava bean hemagglutination by enzyme-treated erythrocytes, by E. Suescun and A. M. Frumin 53
Idiopathic acquired autoimmune hemolytic anemia: A review of forty-seven cases treated from 1955 through 1965, by J. W. Allgood and H. Chaplin, Jr. 165
Immune cross-reactivity of penicillin and cephalothin, by H. R. Gralnick and M. H. McGinniss 53
Immuno-electromicroscopic studies of surface antigens of blood elements. I. Autoantibody on erythrocytes in acute hemolytic anemia, by G. Tonietti *et al.* 360
In vivo metabolism of complement. I. Metabolism of the third component (C'3) in acquired hemolytic anemia, by L. D. Petz *et al.* 223

Hemolytic Disease of the Newborn

Advantages of use of maternal erythrocytes for fetal transfusion, by D. L. Hutchinson *et al.* 100
Albumin administration in exchange transfusion for hyperbilirubinemia, by A. Comley and B. Wood 99
A working population model for haemolytic disease of the newborn, by E. G. Knox and W. Walker 223
Failure of anti-D immunoglobulin injection to protect against rhesus immunization after massive foeto-maternal haemorrhage: Report of four cases, by C. D. Wit and E. Borst-Eilers 100
Failure of a relatively small dose of passively administered anti-Rh to suppress primary immunization by a relatively large dose of Rh-positive cells, by N. C. Hughes-Jones and P. L. Mollison 100
Fetal complications of amniocentesis, by W. T. Creasman *et al.* 53
Plasmapheresis in severe Rh iso-immunization, by J. M. Bowman *et al.* 222
Prevention of hyperbilirubinemia of prematurity by phototherapy, by J. Lucey *et al.* 99
Prevention of Rh immunization due to large volumes of Rh-positive blood, by J. C. Woodrow *et al.* 99
Screening for hemolytic disease of the newborn by cord blood Coombs testing, by J. H. Clifford *et al.* 100
Selection of blood for exchange transfusion in erythroblastosis fetalis, by F. H. Allen, Jr... 99
Serological findings in ABO hemolytic disease of the newborn, by V. Vlahovic *et al.* 274
The prophylaxis of Rh hemolytic disease with Rh immunoglobulin, by L. N. Sussman *et al.* 98

Immunology

Antigen-associated immunosuppressant: Effect of serum on immune response, by H. Y. Whang and E. Neter 274
Human monocytes: Distinct receptor sites for the third component of complement and immunoglobulin G, by H. Huber *et al.* 163
Quantitative agglutination studies of erythrocytes sensitized by two antibodies, by R. M. Greendyke and S. N. Swisher 163
Red cell binding of gamma heavy chains isolated from polyalanylated anti-Rh_o IgG, by S. J. Gross and Z. Tökes 274
Studies of blood group substances. IV. Caprine IgG and IgM antibodies to human H substance, by D. M. Marcus and L. E. Case 163
Studies on the mechanism of immunoglobulin binding to red cells, by D. Frommel *et al.* ... 163
The direct Coombs' test: Its clinical significance: Study in a large University hospital, by R. F. Bohner *et al.* 103

Isoimmunization

Failure of antibody formation after massive exposure to the Rh_o(D) antigen, by W. Q. Ascari 104
Prevention of Rh immunization after massive Rh-positive transfusion, by J. M. Bowman and B. Chown 104
The suppression of Rh immunization by passively administered human immunoglobulin (IgG) anti-D (Rh_o (D)), by B. Chown *et al.* 104

Methods

Factor VIII and antibody levels in plasma fractions prepared by cryoprecipitation, by A. Pollock 274

Matching of blood for recipients of dextran, by J. G. Selwyn *et al.* 221

Miscellaneous

Antibody production to aggregated human γG-globulin in acquired hypogammaglobulinemia, by C. S. Henney and E. F. Ellis 101
Blood volume and hematocrit value in macroglobulinemia and myeloma, by W. L. Kopp *et al.* 274
Endogenous formation of carbon monoxide in newborn infants. III. ABO incompatibility, by S. P. Fallström and J. Bjure 102
Erythrocyte substitute for perfusion of brain, by H. A. Sloviter and T. Kamimoto 101
Hemagglutinating 7S subunits of 19S cold agglutinins, by A. G. Cooper 101
Hepatic coma with renal failure, treated by repeated exchange transfusion, by E. N. Thompson *et al.* 103
Studies on erythro-kinetics in infancy. IX. Prediction of red cell volume from venous haematocrit in early infancy, by L.-E Bratteby . 101
Studies on erythro-kinetics in infancy. X. Red cell volume in newborn infants in relation to gestational age, by L.-E Bratteby 101
Studies on erythro-kinetics in infancy. XI. The change in circulating red cell volume during the first five months of life, by L.-E Bratteby 102
Studies on erythro-kinetics in infancy. XII. Survival in adult recipients of cord blood red cells labelled *in vitro* with Di-isopropylfluorophosphonate ($DF^{32}P$), by L.-E. Bratteby *et al.* 102
Studies on erythro-kinetics in infancy. XIII. The mean life span and life span frequency function of red blood cells formed during foetal life, by L.-E. Bratteby *et al.* 102
Transplacental hemorrhage in spontaneous and induced abortion, by C. D. Mathews and A. E. B. Mathews 275

Serum Hepatitis

Australia antigen and acute viral hepatitis, by W. T. London, *et al.* 223
Australia antigen and hepatitis, by B. S. Blumberg *et al.* 360
Australia antigen and the quest for a hepatitis virus, by A. I. Sutnick *et al.* 360
Direct exchange transfusion: Technique and results in liver disease, severe infection, thrombocytopenia, and leukemia, by J. A. McLean and H. A. Luke 361
Exchange transfusion in fulminant hepatic failure, by T. B. Reynolds 361
Hepatitis in a maintenance hemodialysis unit, by J. B. Eastwood *et al.* 223
Importance of requirements to produce minimal risk plasma, by J. G. Allen 361
Massive liver necrosis in the monkey: The effects of exchange blood transfusions on fulminant liver failure, by C. Trey *et al.* .. 361
Neutralizing antibodies to adenovirus in infectious hepatitis, by J. Alwen and F. Fulton 223
Observations on Australia antigen in Japanese, by K. Okichi and S. Murakami 361
Risk of anicteric hepatitis following blood transfusion, by B. N. Somayaji *et al.* 106

Serum Proteins

Antibody spectrum of human gamma-globulin for clinical use, by P. Magnusson and L. O. Kallings 103
Isoantibodies to inherited types of β-lipoproteins (Ag) and immunoglobulins (Gm and Inv), by A. Vierucci *et al.* 104

Storage and Transfusion

Aspects of refusal of blood transfusion, by C. Goetsch 105
Autotransfusion: Historical review and preliminary report on a new method, by J. D. Wilson and H. F. Taswell 221
Clinical analysis of the effect of fibrinolytic (cadaveric) and regular bank blood in anemic patients, by P. M. Alperin *et al.* 49
Clinical evaluation of concentrated red cells, by I. O. Szymanski and C. R. Valeri 362
Comparative evaluation of methods of exchange blood transfusion, by V. A. Agranenko *et al.* 275
Direct exchange blood transfusion in treatment of hepatic coma, by J. A. McLean and H. A. Luke 105
Early fluid treatment of severe burns: Hemodynamic alterations and the use of dextran and blood, by B. W. Haynes, Jr. 221
Evaluation of stored blood viability by methylene blue reduction, by M. D. Sass *et al.* ... 362
Exchange transfusions for intractable hepatitis coma: Successful treatment of a patient with alcoholic hepatitis, by J. J. Szwed *et al.* ... 275
Hemoglobin function in stored blood, by H. F. Bunn *et al.* 362
Hepatic coma due to acute hepatic necrosis treated by exchange blood transfusion, by E. A. Jones *et al.* 225
Investigation of materials and methods for air delivery of whole blood and blood products, by C. E. Shields *et al.* 224
Investigations of optimal conditions for erythrocyte drying, by A. E. Kisselev *et al.* 50
Malaria in American soldiers, by O. J. Martelo *et al.* 362
Modification of blood bank alarm, by A. Blum and G. Christianson 51
Our experience in preserving red cells by freezing in Dimethylsulfoxide (DMSO), by E. Dobry *et al.* 50
Postabortal septicemia due to *Clostridium Welchii:* Treatment with exchange transfusion, by W. B. Strum *et al.* 50
Reappraisal of acid–citrate–dextrose solution for whole blood storage, by C. E. Shields ... 105
Replacement of operative blood loss of more than one liter with Hartmann's solution, by B. Rigor *et al.* 225
Restoration *in vivo* of erythrocyte adenosine triphosphate, 2,3-diphosphoglycerate, potassium ion and sodium ion concentrations following the transfusion of acid–citrate–dextrose-stored human red blood cells, by C. R. Valeri and N. M. Hirsch 362
Studies on the preservation of human blood. III. The posttransfusion survival of stored and damaged erythrocytes in healthy donors and patients with severe trauma, by R. J. Dern 105

Study of factors determining the usefulness and complications of leukocyte transfusions, by L. Schwarzenberg *et al.* 105
The effects of more frequent transfusions upon bone loss in thalassemia major, by F. E. Johnston and J. M. Roseman 50
The preservation of blood for transfusions. VI. Effect of addition of adenine and inosine on ATP and posttransfusion survival of red cells of stored blood, by M. M. Strumia *et al.* 49
Transfusion of specific plasma components, by J. L. Tullis and R. B. Pennell 106
Transfusions subsequent to administration of universal donor blood in Vietnam, by A. Barnes, Jr. and T. E. Allen 50
Trends away from blood and plasma in the early treatment of severe burns, by T. G. Blocker, Jr., *et al.* 224
Use of a double erythrocyte label technique to measure red cell survival of ACD and ACD-adenine preserved blood in trauma patients, by R. R. Taube *et al.* 224
Use of polyvinylpyrrolidone in ultra-rapid freezing of whole blood and red cell mass and practical ways of applying this to clinical transfusion, by F. R. Vinograd-Finkel *et al.* 275
Whole blood versus packed red cells for preoperative transfusions, by R. D. Williams .. 361

Transfusion Reactions

Anaphylactic transfusion reaction associated with anti-IgA antibody, by A. P. Schmidt *et al.* 225
A virus-latex agglutination test for detecting antibodies against isolates associated with viral hepatitis, by V. S. Bolin *et al.* 52
Delayed hemolytic transfusion reaction with acute renal failure, by P. V. Holland and O. R. Wallerstein 51
Hemoglobinuria due to anti-rh^{w1} (C^{w}): Observations on enzyme test procedures, by P. J. Schmidt *et al.* 51
Hemolytic transfusion reaction occurring in a patient with acute renal failure, by P. E. Hoffsten and H. Chaplin, Jr. 363
Immediate and delayed mortality associated with massive blood transfusions, by C. P. Boyan and W. S. Howland 363
Lethal air embolism from plastic blood-storage container, by A. E. Yeakel 51
Malaria in an infant, transmitted by transfusion, by E. E. Czapek, *et al.* 52
Neonatal exchange transfusion and childhood leukemia, by P. J. Dawson and S. S. Meighan 52
Pathogenesis of the acute renal failure associated with incompatible transfusion, by P. J. Schmidt and P. V. Holland 225
Post-transfusion thrombocytopenia purpura, by E. E. Morse 51
Rapid *in vivo* destruction of Yt(a+) red cells in a patient with anti-Yt^{a}, by R. Bettigole *et al.* 51
Risk and complications arising out of blood transfusion, by V. Rudofsky *et al.* 276
Serum hepatitis at the Veterans Administration Research Hospital, Chicago 1954-1963, by H. C. Laureta *et al.* 52
Use of double plastic bags for *in vivo* crossmatches: Report of a case, by R. T. N. Hunt 52

Transplantation

ABO blood group incompatibility in human renal homotransplantation, by R. Wilbrandt *et al.* 272
Antigens on human fibroblasts demonstrated with HL-A antisera and anti-human lymphocytic sera, by E. Thorsby and S. Lie 273
Citrate infusion in dogs following cardiac autotransplantation: Studies on cardiovascular effects, by N. T. Smith and E. J. Hurley ... 363
The preoperative assessment of histocompatibility, by C. M. Zmijewski and J. L. Fletcher 363

White Cells and Platelets

An extension of the Pl^{B} platelet antigen system in man, by D. W. Gabb 276
Current methods for the cryopreservation of human leukocytes (granulocytes), by J. A. Cavins *et al.* 364
Discussion on the current status of platelet preservation, by M. G. Baldini 364
Platelet preservation problems, by F. H. Gardner 364
Preservation of blood platelets, by F. S. Morrison 364
Use of "compatible" platelet transfusions in the treatment of isoimmune thrombocytopenic purpura, by M. M. Adner *et al.* 363

Book Reviews

Autoimmunization and the Autoimmune Hemolytic Anemias, by Bernard Pirofsky 357
Blood Grouping Tests: Medicolegal Uses, by L. N. Sussman 162
Blood Groups in Man, 5th Ed., by R. R. Race and R. Sanger 219
Clinical Interpretation of Laboratory Tests, 6th Ed., by R. H. Goodale and F. K. Widmann .. 219
Immunohematology, by C. M. Zmijewski 48
Principles of Microbiology and Immunology, by Bernard D. Davis, Renato Dulbecco, Herman N. Eisen, Harold S. Ginsberg, and W. Barry Wood, Jr. 358
Proceedings of the XIth Congress of the International Society of Blood Transfusion, Sydney 1966, L. P. Hollander, Ed. 270
Serological and Immunological Methods, 6th Ed., by B. P. L. Moore *et al.* 47
Structural Concepts in Immunology and Immunochemistry, by Elvin A. Kabat 270
The Blood in Disease, by C. A. Hall 98
